

# BUILT ENVIRONMENT JOURNAL

## ABOUT THE JOURNAL

Built Environment Journal (BEJ) is a multi-disciplinary double-blind, peer-reviewed journal that will be published twice a year by the College of Built Environment (CBE), Universiti Teknologi MARA (UiTM), Shah Alam, Selangor, Malaysia. The official publisher is Penerbit UiTM.

The journal covers a broad spectrum of Built Environment disciplines that can contribute to the enhancement of knowledge in the field. The BEJ seeks to advance academic debates through high-quality publications among academics and professionals in the built environment and the construction industry. We are looking for papers in the built environment themes but are not limited to:

*Urban Planning and Development  
Housing Development  
Tourism Planning and Development  
Property and Facilities Management  
Project Management  
Construction Management  
Contract, Land Law and Administration  
Construction Contract and Procurement  
Construction Economics and Financial  
Management  
Sustainable Construction  
Value and Risk Management  
Architecture  
Landscape Architecture  
Interior Architecture  
Building Pathology*

*Heritage Conservation  
Building Technology and Services  
Construction Process  
Building Automation  
Innovative Construction  
Technologies  
Engineering Design  
Futuristic Design  
Applied Geospatial Technology  
Disaster Management and  
Resilience  
Park, Amenity and Recreation  
Management*

*Any other topic related to built  
environment, construction  
engineering, design, management,  
education, research and practice.*

Built Environment Journal (BEJ) is a platform for global and local researchers, practitioners, government agencies, private entities, non-governmental organisations (NGOs) and local communities to publish articles covering various themes and topics.

The journal benefits a diverse readership of scientists, practitioners, specialists and policy-makers in government and organisations dealing with built environment issues.

It also provides a transfer of exchange discussion of new ideas and findings to the current relevance for the progressing future in the form of proper publications.
