

BUILT ENVIRONMENT JOURNAL

A faint, purple-tinted background image of a modern building with a glass facade and a prominent entrance.

ABOUT THE JOURNAL

Built Environment Journal (BEJ) is a multi-disciplinary double-blind, peer-reviewed journal that will be published twice a year by the College of Built Environment (CBE), Universiti Teknologi MARA (UiTM), Shah Alam, Selangor, Malaysia. The official publisher is Penerbit UiTM.

The journal covers a broad spectrum of Built Environment disciplines that can contribute to the enhancement of knowledge in the field. The BEJ seeks to advance academic debates through high-quality publications amongst academics and professionals in the built environment and the construction industry. We are looking for papers in the built environment themes but are not limited to:

Urban Planning and Development
Housing Development
Tourism Planning and Development
Property and Facilities Management
Project Management
Construction Management
Contract, Land Law and Administration
Construction Contract and Procurement
Construction Economics and Financial Management
Sustainable Construction
Value and Risk Management
Architecture
Landscape Architecture
Interior Architecture

Building Pathology
Heritage Conservation
Building Technology and Services
Construction Process
Building Automation
Innovative Construction Technologies
Engineering Design
Futuristic Design
Applied Geospatial Technology
Disaster Management and Resilience
Park, Amenity and Recreation Management

Any other topic related to built-environment, construction engineering, design, management, education, research and practice.

OBJECTIVES

Built Environment Journal (BEJ) is a platform for global and local researchers, practitioners, government agencies, private entities, non-governmental organisations (NGOs) and local communities to publish articles covering various themes and topics.

The journal benefits a diverse readership of scientists, practitioners, specialists and policy-makers in government and organisations dealing with built environment issues.

It also provides a transfer of exchange discussion of new ideas and findings to the current relevance for the progressing future in the form of proper publications.

EDITORIAL BOARD

CHIEF EDITOR

Professor Sr Dr Zulkiflee Abd Latif
UiTM, Shah Alam, Selangor, Malaysia
