ABOUT THE JOURNAL

Built Environment Journal (BEJ) is a multi-disciplinary double-blind, peer-reviewed journal that will be published twice a year by the Faculty of Built Environment (FBE), Universiti Teknologi MARA (UiTM), Shah Alam, Selangor, Malaysia. The official publisher is Penerbit UiTM.

The journal covers a broad spectrum of Built Environment disciplines that can contribute to the enhancement of knowledge in the field. The BEJ seeks to advance academic debates through high-quality publications among academics and professionals in the built environment and the construction industry. We are looking for papers in the built environment themes but are not limited to:

Urban Planning and Development
Housing Development
Tourism Planning and Development
Property and Facilities Management
Project Management
Construction Management
Contract, Land Law and Administration
Construction Contract and Procurement
Construction Economics and Financial Management
Sustainable Construction
Value and Risk Management
Architecture
Landscape Architecture
Interior Architecture
Building Pathology

Heritage Conservation
Building Technology and Services
Construction Process
Building Automation
Innovative Construction Technologies
Engineering Design
Futuristic Design
Applied Geospatial Technology
Disaster Management and Resilience
Park, Amenity and Recreation Management

OBJECTIVES

Built Environment Journal (BEJ) is a platform for global and local researchers, practitioners, government agencies, private entities, non-governmental organisations (NGOs) and local communities to publish articles covering various themes and topics.

The journal benefits a diverse readership of scientists, practitioners, specialists and policy-makers in government and organisations dealing with built environment issues.

It also provides a transfer of exchange discussion of new ideas and findings to the current relevance for the progressing future in the form of proper publications.
